

PEACE: FORMALLY END WORLD WAR

HUNS AFFIX THEIR NAMES TO PACT FIRST

Clemenceau Issues Stern Warning to Germans

[By The Associated Press.]
VERSAILLES, June 28.—(By The Associated Press.)—World peace was signed and sealed in the historic Hall of Mirrors at Versailles this afternoon, but under circumstances which somewhat dimmed the expectations of those who had worked and fought during long years of war and months of negotiations for its achievement.

Depends Upon Ratification
The absence of the Chinese delegates, who at the last moment were unable to reconcile themselves to the Shantung settlement, and left the eastern empire outside the formal purview of peace, struck the first discordant note in the assembly. A written protest which General Jan Christian Smuts lodged with his signature was another disappointment to the makers of the treaty. But bulking larger was the attitude of Germany and the German plenipotentiaries, which left them, as evident from the official program of the day and from expression of M. Clemenceau, still outside any formal reconciliation and made actual restoration to regular relations and intercourse with the allied nations dependent, not upon the signature of the plenipotentiaries of peace today, but upon ratification by the national assembly.

To M. Clemenceau's stern warning in his opening remarks that they would be expected, and held to observe the treaty provisions legally and completely, the German plenipotentiaries, replied after returning to the hotel, that they had known they would be treated as shown by their separate exit before the general body of the conference, they never would have signed.

Tone One of Relief.
Under the circumstances the general tone of sentiment in the historic sitting was one rather of relief at the uncontroverted end of hostilities than of complete and unalloyed satisfaction.

The ceremony came to a dramatic close—in fact, reached its highest dramatic pitch—with the enthusiastic reception of President Wilson, M. Clemenceau and Mr. Lloyd George by the crowds outside the palace, who ignored or disregarded the minor discords of the day. They tore the three statesmen from their escorts and almost carried them bodily in their progress thru the chateau grounds, to watch the playing of the fountain—a part of the program which had been planned as a dignified state procession of all the plenipotentiaries.

Fiftieth Anniversary of Murder
This anniversary of the world war, which lasted thirty seven days less than five years. Today, the day of peace, is the fiftieth anniversary of the murder of Archduke Francis Ferdinand at Sarajevo.

The ceremony of signing the peace terms was brief. Premier Clemenceau called the session to order in the Hall of Mirrors of the chateau of Versailles at 3:10 o'clock. The signing began when Dr. Herman Mueller and Johannes Bell, the German plenipotentiaries, signed at 3:12 o'clock and Herr Bell at 3:13 o'clock. President Wilson, first of the allied delegates, signed a minute later. At 3:45 o'clock the momentous scene was concluded. All the diplomats and members of their parties wore conventional civilian clothes. There was a marked lack of gold lace and pageantry. There were few of the fanciful uniforms of the middle ages, whose traditions and practices are so sternly condemned around the great, steel covered document signed today. A spot of color was made against this somber background by the French guards. A few selected members of the guard were resplendent in their red-plumed silver helmets and red, white and blue uniforms. As a contrast with the Franco-German peace session of 1871, held in the same hall, there were present today grizzled French veterans of the Franco-Prussian war. They replaced the Prussian guardsmen of the previous ceremony and the Frenchmen today watched the ceremony with grim satisfaction.

WILSON REFUSES TO SUSPEND WAR TIME DRY ACT

PEACE SIGNING DOES NOT EXCITE WASHINGTON

Saturday Afternoon Crowds Give No Show of Interest

[By The Associated Press.]
WASHINGTON, June 28.—Word of the consummation of peace was received by the National capital with scarcely a flutter of popular or official sentiment. At the white house and the state department the news aroused only a quiet feeling of satisfaction that the pre-arranged program for the signing at Versailles had gone thru. In congress there was but a momentary demonstration and on the streets the Saturday crowds gave no show of interest.

Refused to Keep Seats
An hour before the signing of the treaty, those assembled in the hall had been urged to take their seats, but their eagerness to see the historic ceremony was so keen that they refused to keep their seats, and crowded toward the center of the hall, which is so long that a good view was impossible from the distance. Even with opera glasses the correspondents and others were unable to observe satisfactorily. The seats were in no way elevated, consequently there was a general scramble for standing room.

Secretary Lansing was the first of the distinguished diplomats to arrive. He was followed shortly by M. Clemenceau and General Bliss. The delegates of the minor powers made their way with difficulty thru the crowd to their places at the hall, and the crowds outside lined the walls and filled the aisles. President Wilson's arrival ten minutes before the hour for signing was greeted by a faint burst of applause from the few persons who were able to see him.

The German correspondents were ushered into the hall shortly before three o'clock and were given standing room in a window at the rear of the correspondent's section. When Premier Lloyd George arrived, many of the delegates sought autographs from the members of the council of four, and they busied themselves signing copies of the official program until the Germans entered the room.

At 3 o'clock a hush fell over the hall, and the crowds shouted for the officials who were standing to sit down, as not to block the view. The delegates showed some surprise at the disorder, which did not cease until all the spectators had either seated themselves or found places against the walls.

Huns Show No Uneasiness.
At seven minutes past three Dr. Herman Mueller, the German secretary for foreign affairs and Dr. Bell, the colonial secretary were shown into the hall, and quietly took their seats at the left end of the U-shaped table. They showed composure, and manifested none of the uneasiness which Count von Brockdorff-Rantzau, head of the German peace delegation, displayed when he handed the treaty at Versailles.

M. Clemenceau, as president of the conference, made a brief speech inviting the Germans to sign the treaty and there was a tense pause. William Martin, member of the German plenipotentiaries, after a momentary delay escorted the German plenipotentiaries to the signatory table, where they signed the treaty, the protocol and the Polish undertaking. Because of the confusion and the crowd, the signing lost much of its expected dignity.

After the Germans had signed, President Wilson followed by the other American delegates made his way to the table and the others speedily affixed their signatures. Premier Lloyd George came next with the English delegation. The British dominions followed—Canada, Australia, New Zealand, South Africa and India, in the order named.

Smuts Causes Surprise
A murmur of surprise passed around the hall when it became known that General Smuts, representing South Africa, signed under protest and filed a document declaring that the peace was unsatisfactory. M. Clemenceau with the French delegates were the next in line for the signing and then Baron Saloni and the other Japanese delegates. The Italians came after the Japanese and they, in turn, were followed by the representatives of the smaller powers. During the attaching of the signatures of the great powers and the Germans, a battery of moving picture machines and cameras clicked away so audibly that they could be heard above the general din. At 3:45 the booming of cannon in celebration of the peace broke the monotony in the Hall of Mirrors.

President's Message On Prohibition Question

WASHINGTON, June 28.—Secretary Tumulty gave out the following statement: "The secretary to the president, at the white house tonight made public the following cable from the president with reference to war time prohibition: 'I am convinced that the attorney general is right in advising me that I have no legal power at this time in the matter of the ban on liquor. Under the act of November 1918, my power to take action is restricted. The act provides that after June 30, 1919, until the conclusion of the present war and thereafter until the termination of demobilization, the date of which shall be determined and proclaimed by the president it shall be unlawful, etc.'

"This law does not specify that the ban shall be lifted with the signing of peace, but with the termination of the demobilization of the troops I cannot say that that has been accomplished. My information from the war department is that there are still a million men in the service under the emergency call. It is clear therefore that the failure of congress to act upon the suggestion contained in my message of the 20th of May, 1919, asking for a repeal of the act of November 21, 1918, so far as it applies to wines and beer, makes it impossible to act in this matter at this time.

"When demobilization is determined, my power to act without congressional action will be exercised. "WOODROW WILSON"

ASK LOWDEN TO BECOME CANDIDATE

CHICAGO, June 28.—Governor Lowden, of Illinois, was asked to become a candidate for the Republican presidential nomination by the Illinois Press Association which today thru its retiring president, S. P. Preston of Gillespie, sent the governor a telegram as follows: "It is the wish of the Illinois Press Association, a non-partisan organization that you become a candidate for the Republican nomination for president of the United States."

James E. McClure, of Carlinville, was elected president; Mrs. John T. Galbraith, of Carbondale, only woman member, first vice president; H. L. Williamson, Springfield, secretary; B. E. Pinkerton, Monmouth, treasurer. A banquet tonight concluded the convention.

Re-Assert Confidence
The president's supporters on the other hand, re-assured their confidence of enough votes to defeat any specific reservation that might be proposed. One result of the day's conferences was to dispel likelihood of action in the near future on the resolution of Senator Hitchcock, Republican of Idaho, issued a statement on the subject, however, in which he bitterly criticized the treaty provisions affecting Shantung.

Expect Wilson July 7.
While the white house was not fully advised tonight regarding the president's plans, it was the expectation of officials that he would reach this country about July 7th and come almost immediately to Washington. It was revealed that he expected to land at New York and it was thought entirely likely that he would remain there a few hours to attend a meeting of welcome.

LOWDEN BEGINS SIGNING BILLS
SPRINGFIELD, Ill., June 28.—Governor Lowden was besieged until mid-afternoon today with persons appearing before him for and against measures awaiting executive action. Then he shut himself up in his private office and began the work of signing bills.

"I suppose it will mean about eighteen hours a day between now and Monday afternoon," the governor said as the door closed behind him. The legislature meets for the adjournment at 4 p. m. Monday and bills signed or left unsigned July 1 become law.

Issues Quarantine Order.
Jefferson, City, Mo., June 28.—On the recommendation of Dr. D. F. Luckey, state veterinarian, Governor Gardner has issued a quarantine proclamation regulating the shipments of cattle from public stock yards in Missouri.

Tow Ship To Port.
Milwaukee, June 28.—The steamer Holland of the Crosby Transportation company reached Milwaukee in tow this afternoon. Passengers aboard suffered no ill effect from the delay.

WILSON ASKS PEOPLE TO ACCEPT TREATY

Issues Address on Occasion of Signing of Pact

[By The Associated Press.]
WASHINGTON, June 28.—President Wilson in an address to the American people on the occasion of the signing of the peace treaty made a plea for the acceptance of the treaty and the covenant of the league of nations without change or reservation. His message given out here by Secretary Tumulty said:

Furnishes Charter for New Order
"My fellow countrymen: The treaty of peace has been signed. If it is ratified and acted upon in full and sincere execution of its terms, it will furnish the charter for a new order of affairs in the world. It is a severe treaty in the duties and penalties it imposed upon Germany, but it is severe only because great wrongs done by Germany are to be righted and repaired; it imposes nothing that Germany cannot do; and she can regain her rightful standing in the world by the prompt and honorable fulfillment of its terms.

"And it is much more than a treaty of peace with Germany. It liberates great peoples who have never before been able to find the way to liberty. It ends, once for all, an old and intolerable order under which small groups of selfish men could use the peoples of great empires to serve their ambition for power and dominion. It associates the free governments of the world in a permanent league in which they are pledged to use their united power to maintain peace by maintaining right and justice. It makes international law a reality supported by imperative sanctions. It does away with the right of conquest and rejects the policy of annexation and substitutes a new order under which backward nations—populations which have not yet come to political consciousness and peoples who are ready for independence but not yet quite prepared to dispense with protection and guidance—shall no more be subjected to the domination and exploitation of a stronger nation, but shall be put under the friendly direction and aid of the league of nations, which undertake to be responsible to the opinion of mankind in the execution of their task by accepting the direction of the league of nations. It recognizes the inalienable rights of nationality, the rights of minorities and the sanctity of religious belief and practice. It is the basis for conventions which shall free the commercial intercourse of the world from unjust and vexatious restrictions and for every sort of international cooperation that will serve to cleanse the life of the world and facilitate its common action in beneficent service of every kind. It furnishes guarantees such as were never given or even contemplated for the fair treatment of all who labor at the daily tasks of the world.

Ground for Deep Satisfaction.
It is for this reason that I have spoken of it as a great charter for a new order of affairs. There is ground here for deep satisfaction, universal reassurance, and confident hope.

CHINESE TRIED TO OBTAIN PERMISSION
PARIS, June 28.—By The Associated Press.—China's refusal to sign the peace treaty came after repeated efforts of the Chinese delegation to obtain permission to sign with reservations on the Shantung settlement. President Wilson was appealed to by the Chinese delegation several times within the past week and at first seemed inclined to favor allowing the Chinese to attach their signatures with reservations. Finally, however, he concurred in the decision of the conference that the Chinese might make a declaration on their signature but not before.

Blockade in Force UNTIL RATIFICATION
VERSAILLES, June 28.—(Havas.)—The allied note to the German delegation dealing with ratification of the treaty by Germany was delivered late this afternoon. It pointed out in the note among other things that withdrawal of the blockade to Germany depends on the ratification of the treaty.

THE PACKARD SALE
The sale of livery stock of Thomas Packard was held yesterday afternoon according to announcement. C. M. Strawn, auctioneer. The time of the season was unfortunate as so many people are now busy they have no time to attend sales. Bidding was not very spirited and prices generally ruled not very high. Some of the stock had been in use a good while and some not so long. Mr. Packard honestly pointed out every defect in the horses so a man knew what he was getting.

Nearly 7,500 Troops Return From France

TO ACT WHEN DEMOBILIZATION IS TERMINATED

Executive Says He Has No Authority to Act at Present

[By The Associated Press.]
WASHINGTON, June 28.—President Wilson has decided he cannot legally lift the war time prohibition ban before the country goes dry at midnight, but he expects to do so as soon thereafter as his power has been made clear by the completion of demobilization. In a cablegram made public tonight at the white house the president said he was convinced after consultation with his legal advisers that he had no authority to act at this time.

"When demobilization is terminated," he continued, "my power to act without congressional action will be exercised." The message expressed no opinion as to the authority of the president when he raises the ban to make his action applicable only to beer and wine.

Refusal of President Wilson to act at this time means that the long arm of the war time law will reach out quietly at midnight and close the door of every establishment on American soil. Next in public interest to announcement of President Wilson's attitude comes the question—how soon will the army be demobilized. There was strong belief in some quarters tonight that this date would not be long delayed in view of the signing of the treaty, the action of congress in reducing the size of the army, and the effort of the government to bring back all troops from abroad just as speedily as it is humanely possible to bring them.

In Line With Opinion.
The president's emphatic announcement as to what he would do when demobilization is terminated was exactly in line with the opinion of members of the house judiciary committee expressed heretofore—that it did not require congressional action to authorize him to declare war time prohibition ended.

This may come it was pointed out much sooner than most people imagine and there were predictions that saloons in cities where the sale of liquor now is permitted might be in operation by the end of the summer.

They could not operate, however beyond January 16, 1920, for on that date the country will become dry by constitutional amendment.

With all doubt removed as to what the president would do, would not do anti-prohibitionists in the house prepared to make the best fight possible on the general prohibition enforcement bill which was reported out yesterday by the judiciary committee.

It will not be taken up on the floor until after the short holiday recess which means the government will depend upon present laws for enforcement of the war time act. Warning already has been given that these provide ample penalties and ample means of prosecution.

TOURISTS MAY NOT GO TO FRANCE 'TIL 1920

WASHINGTON, June 28.—Tourist travel to France from this country will not be permitted before next year, the state department announces. Business men will be permitted to send agents to any European country following the signing of the peace treaty. It was said but restrictions as to the return trip will continue in force because of the needs of space for soldiers and civilian war department employees.

WEATHER FORECAST FOR COMING WEEK

WASHINGTON, June 28.—Weather predictions for the week beginning Monday issued by the weather bureau today are: Region of Great Lakes generally fair although some prospect of showers Tuesday or Wednesday in Upper Lake region. Nearly normal temperatures.

Upper Mississippi and Lower Missouri valleys: Some prospect of rain showers Tuesday and Thursday, otherwise generally fair; temperatures will average above normal except during the early part of the week.

RAPID HARVESTING

When one old enough can contrast the days of the sickle and later of the cradle with the present self-binder, wide cut, he sees an immense difference. A gentleman yesterday said Richard Self was cutting right at thirty acres of wheat a day with a tractor and wide cut binder and another said he had seen Richard Fanning of the vicinity of Virginia cut thirty acres a day with horses, changing teams and using eight horses during the day, four at a time. He doesn't stop the binder for anything but darkness, one shift running the harvester while the other is at dinner.

ROB PEARL BANK.

Quincy, June 28.—The Mintner Brothers bank at Pearl, Ill., was robbed yesterday and a large amount of bonds and other securities taken but no cash. It is said there were no doors or windows forced and the safe was not blown. The owners of the bank have refused to make a statement of the amount of securities lost.

THE OTHER FELLOWS GAME.

Many men buy on the board of trade as a matter of business. Others simply speculate. "Some men," said a long time resident yesterday, "have an idea that they know more today about what Mr. Armour is going to do tomorrow than he does himself." They are

willing to back their judgment by putting up their money. Evidently this citizen feels that the ordinary patron of a board of trade is playing the other man's game and is eventually pretty sure to lose.

SALARIES FOR TWO PERHAPS Because Peter Mortenson, who is Mayor Thompson's superintendent of schools in Chicago, is discharging the duties, no one must think that Charles E. Chadsey, previously elected, has entirely disappeared from the arena. Litigation is under way whereby the members of the board who selected Mr. Chadsey expect to have him reinstated.

The controversy will no doubt continue thru some months and will probably end by both educators drawing salaries for the period in which they were appointed. That is the way they do in congress when there is a contest for a seat. Even if the decision comes near the end of the term, at least the man gets the honor and both the salary.

THE ANNUAL COAL SHORTAGE.

The annual warning about coal

shortage next winter is going forth from government sources and, as usual, people are likely to give little heed to the warning. This was not true in war time, for then the public had a certain knowledge that industry was using up much more than the normal supply, and in fact the public created a shortage by seeking to store coal for private use in fear of an acute time later on. Now that the war is over, people are fast turning to their accustomed state of mind and so give little credence to the hue and cry of "coal shortage."

Nevertheless, a survey of the facts shows that a vast number of foreigners who have engaged in mining are taking passage to home countries, and the shortage of labor is certain to be real. Industry is consuming more than the normal amount and with the lessened production because of the decline in the available labor supply, this year's "shortage" bids fair to be just about as real as that of the war period.

A LABOR DAY SUGGESTION

It has been suggested that Labor Day this year be observed in Jacksonville with a picnic on the land adjoining the new reservoir. It is understood that men of the Trades Assembly and unions have been talking about the project and look favorably upon it. Certainly the people as a whole will approve this plan. It would be very appropriate for everybody to join in a picnic on these grounds, and for any of the company who have not visited the pumping station in recent months the sight will indeed be a revelation. There is something particularly appealing too about the idea of a Labor day celebration so near an important project which the patriotism and enthusiasm of the people of Jacksonville made possible.

Occasionally local jealousies have marred things in Jacksonville but in the main the relations between all citizens here are of a cordial friendly kind and the proposed picnic would go a long way toward further cementing this relationship.

THE WAR RISK BUREAU WORK.

The establishment by the government of the Bureau of War Risk Insurance as a permanent institution for the benefit of soldiers, sailors, marines, and army and navy nurses, is a monument of gratitude from Uncle Sam to those who served their country during the war.

This was the statement made before the National Council, World War Veterans, by Ballard Dunn, assistant chief of the Insurance Division of the Bureau in his address on "Why World War Veterans Should Hold Onto Their War Risk Insurance."

The administrative expense of the Bureau is borne by the United States government, he said, in order to provide the lowest cost insurance for the men.

Insurance claims which the Bureau has been called upon to pay are more than \$900,000,000. The amount of premiums received from all service men, and which were deducted from their pay approximately only \$200,000,000 or less than one-quarter of the amount of insurance claims. The excess above premiums which resulted from war losses will be paid by the government.

Rippling Rhymes

By Walt Mason

Credit. I call up on the merchant prince, and ask to see his kiln dried fruits, and say, "Send me a flag and quince," and he replies, "You bet your boots! Just glance around the store," he cries, "and order anything you wish; we have some dandy rhubarb pies, and homeles prunes and potted fish." "Is this in all the parts of trade," I find the welcome sign in view because my bills are always paid quite promptly when said bills are due. It's helpful to your self respect to feel you owe no man a dime. I boast not of my angel face, nor of the blue blood in my veins; I brag not of my queenly grace, nor of my store of sizzling brains; when I'm inclined to toot my horn, I merely say, "I owe no men," and, saying, feel that I adorn the well known sex of which I'm one. Alas, I was not always thus; I used to owe all kinds of scuds, and bailiffs kicked up quite a fuss pursuing me thru many grades. And well I know

how cheap one feels, if he owes kopecks, franc and yen, if Johnson clamors for his wheels, and Jimpson for his iron men. I'd rather live on beeswax pills, and sleep at night in some one's shed, than sidestep merchants bearing bills, and have men say, "Your credit's dead."

SOME PLAIN FACTS ABOUT THE Y. M. C. A.

Letter From One Who Was on the Ground and Knows Whereof She Speaks.

Rev. F. C. Read, pastor of Lynnhaven and Merritt churches, has received a letter from Mrs. Claudia Hall Fleming, a former parishioner whom he knows well and for whom he has the highest regard. She speaks of the criticism of the Y. M. C. A. and its operations in France and deems them most unjust. She says in the case of her and her husband they paid for the privilege of serving. She has the highest testimonials personally from H. B. Durkee, chief secretary, Second Army, and from H. L. Harper, divisional secretary, Y. M. C. A.

After some personal matters she says: The Y. M. C. A. did \$8 per cent of welfare work done overseas. At the time the armistice was signed there were 35 Salvation Army centers, 55 K. of C. centers and 3370 Y. M. C. A. centers, about 1170 of them for our A. E. F., the others for the French. This does not include the work in Italy, England, Egypt, Russia, Siberia, Greece and Macedonia.

The Y. M. C. A. gave away more than 100,000 canteen supplies. The Salvation Army, K. of C. and Red Cross combined. The money paid by the American people went into hut buildings, equipment, transportation, salaries of secretaries, millions of feet of moving picture films and the machines themselves, athletic supplies, stationery, entertainment, etc. Not one cent went into canteen supplies. This was a government proposition. We took the canteen at Gen. Pershing's request in order that every available man would be free then for army service. We did it for the government but the government failed to let us have our goods shipped without transportation and insurance charges. We did not make any money but lost hundreds of thousands of dollars. There were something over one thousand of these country grocery stores for such they were. Had we given away our canteen supplies, that would have meant the giving away of \$300,000,000. This would have broken any organization except the United States government.

In all training areas the canteen supplies were sold according to Gen. Pershing's orders. Supplies were given away at the front and in many other places. I myself know one secretary—Mr. Barnes—who gave away \$10,000 worth of supplies during the Argentine drive.

Transportation charges there were awful and sometimes we could not get our supplies at any price. At one time one hundred automobiles arrived in Brest, I think it was. The "Y" needed them very badly but the army needed them too and took eighty-five of them. There were times when our trucks loaded with canteen supplies were stopped and the trucks commandeered by some army officer who said the soldiers needed ammunition more than they did mokes.

As to money sent home—in our camp we sent thousands of dollars home for boys. No charges. Thus it was everywhere there was a hut.

We were under military orders when to open and close our canteens and often our huts. This we could not always explain to the boys, choosing rather to have the "Y" criticized than to have the army criticized. One man, a prominent business man from Cleveland, let his heart get away with his head. He was ordered to close at six o'clock. Later he was groping about with a flashlight to get some supplies for boys. His light drew the attention of a French plane. That man today is recuperating from a bad gas attack.

Then too we had our orders often as to whom we could serve, what regiments, etc. One can't explain all these things to each individual boy. One boy gets a groutch and he spreads it. They find fault right in the "Y" huts using "Y" stationery, smoking cigarettes bought at a "Y" canteen after drinking a bowl of chocolate made by "Y" workers.

In our camp we charged cost, and often less than cost prices for canteen supplies. When troops were arriving or leaving we furnished them with coffee and often cakes free of charge. I have stood at the counter serving coffee from 10 o'clock p. m. until 5 o'clock a. m. and all day long. Never a cent was asked for the coffee. Sometimes we charged for the sandwiches because the government ordered us to do so.

The boys do not realize at what a disadvantage we were to secure some things. For instance, stationery. In ten months 334,000 sheets of letter paper, 221,000 envelopes and 10,000,000 post cards were given out. We could not get paper in sufficient quantities in France or any of the allied countries. We could have bought it in the U. S. but couldn't get it across. We went into Spain, cut down trees and made pulp. This then was made into paper for our boys. Whole villages were employed in making "Y" paper for our boys. We did have to ask the boys to be careful for it was so hard to get the paper. One day just for curiosity's sake we counted the sheets of papers the boys had wasted in just one day and there were 1000 sheets.

We kept two huts running almost all the time. We also had an auditorium that seated about 1200. There was always some show in the auditorium and some think in each of the huts each night. In just our camp alone we paid over \$200 each month for magazines. We had the daily papers posted every day in the huts. Always on Sundays there was a Catholic service in Hut I and a Protestant service in Hut II and an informal service for all on Sunday evenings. My Bible classes met Sunday and Wednesday evenings and as one of my boys wrote in a letter I received just yesterday, "Our Bible class was the life of our hut, it was the best part of it all. You will never know Mrs. Fleming what our class and you especially meant to us." If you could read the wonderful letters I get from many of my boys you would get a faint glimpse of what the "Y" has meant to them. We were most kindly received in our camp—oh, of course, there were grouches—there were always the grouches. "A soldier won't fight if he doesn't grouch at something." Many a man has said to me, "Mrs. Fleming, if it weren't for you and the "Y" we'd be down in the cafes or Nigerville." I could talk for hours of what has been done. Of one thing I must mention, the money. Many of the boys would not have the patience to learn the French money—they could not differentiate between the cent and the centime. It takes five centimes to make one cent. One man asked me for a can of Prince Albert tobacco. I told him it was 40 centimes. He looked so cross at me I asked him if he thought that too much. "Well," he should say it was," he said, "Why that is less than eight cents," I told him. "Oh," he said, "I thought you said forty cents," and so it goes.

Of course there were mistakes made, many of them, but as one boy put it, "The 'Y' was the biggest thing over there, so of course it gets the most knocks but every knock is a boot." No other organization was allowed a canteen by Pershing's orders. Of course the Red Cross served at the railroads. We were not allowed to go into Red Cross territory so of course the boys in the hospitals thought we had deserted them, but it wasn't our fault. It was a case of "thus far and no farther shalt thou go."

deer bill:

about three weeks ago i was drivin' down main street in a gasoline consumer i had been workin on, and i had the cut-out open to see how she was wobalin and i was just a leetle over the speed limit, when out steps a limb of the law and called my attention to the facts in the case.

now that was all right, i am glad he didn't do any worse, but here's where the shoe pinches: I got an old bus now that has'nt any cut-out and it won't run fast enough to exceed the speed limit, consequently I can't very well keep ahead of anybody and every time i start down S. Main (that's where i live) i get dusted by every old bus on the boulevard, and about half of them have their cut-outs open and I haven't seen that policeman since.

Now what do you think of that?

Yours truly,

JACK.

Matrimonial

Hazel Wagoner.

On Thursday, June 25th at noon, occurred the marriage of Edwin M. Hazel, of Chicago to Miss Mary H. Wagoner, of Jacksonville, Ill. The ceremony was performed by Rev. Philip J. Hasenstab at his residence, in the presence of the immediate relatives of the young couple.

Mrs. Hazel, who is the daughter of Dr. Wagoner Eustice has resided in this city for many years. She was graduated from the School for the Deaf, with the class of 1919. She is a young woman of much worth and has endeavored herself to a great number of friends.

Mr. Hazel received his education principally at the Chicago School. He is employed as Monotype operator at the University of Chicago, and is very successful in his chosen work.

Their many friends extend congratulations and best wishes. After July 15th, they will be at home at 1129 East 55th street, Chicago.

Foster-Ebrey.

The marriage of Miss Louise Foster and Ralph W. Ebrey occurred at 1 o'clock Saturday afternoon, the ceremony being performed by Rev. G. W. Randle at his home on Bissell street. The young people were attended by Mr. and Mrs. Ernest Jones of Franklin. Immediately after the ceremony the bride and groom left for an auto trip to Springfield and other points and upon their return they will be at home to their friends on a farm south-east of the city.

The bride is the daughter of Mrs. Edgar Brewer of 1203 South East street, this city. She has spent the greater part of her life in this city, receiving her education in the public schools. For some time past she has been employed in the store of F. J. Waddell & Co., where her services have been highly valued.

The groom is the son of Mr. and Mrs. Thomas Ebrey of Franklin precinct and thus belongs to one of the county's well known families. He left this city with the contingent of May 28, 1918, and spent a number of months in the army service at Camp Taylor.

Mr. and Mrs. Ebrey begin their wedded life under most happy circumstances and have the hearty good wishes of a wide circle of friends.

Unken-Ommen.

A very pretty home wedding took place Thursday evening at 8 o'clock at the home of Mrs. Marie Ommen, seven miles east of Meredosia, when her daughter,

SYSTEM, the liquid regulator is as necessary to body as oil is to an automobile or any piece of machinery. I found the best results are obtained by taking SYSTEM in the following manner: Tablespoonful four times a day, the first day of the treatment then by taking a tablespoonful at night and repeat the dose before breakfast every fifth day."

"SYSTEM is a positive relief for liver and kidney trouble. Also, it regulates the bowels and brings the blood into perfect circulation and nourishes the whole system. Keep your body in good condition, watch the kidneys, they filter and purify the blood, all of which blood passes through them once every three minutes. Keep them clean and in proper working condition and you will be as when in the spring time of youth."

Miss Anna Ommen, became the bride of Walter F. Unken of Chapin. Rev. J. H. F. Sieving, pastor of the Lutheran church of Chapin performed the ceremony which was witnessed by about eighty relatives and friends of the young people.

The wedding party descended the stair as Lohengrin's Wedding March was played by the Lutheran orchestra of Arenzville. First came the groom and his best man, Edwin Eckhoff. They were followed by the bridesmaid, Miss Edna Unken, a sister of the groom, and little Anna Sieving bearing the ring on a pillow in a basket of sweet peas. Last came the bride and the maid of honor, Miss Martha Redenius of Golden, Ill.

The marriage service was said in the living room before an embarkment of ferns, the young people standing beneath a beautifully decorated arch. The bride's gown was of cream white satin with trimmings of georgette. She wore a sweeping veil of tulle, caught by a string of pearls, and carried a bouquet of cream roses. The bridesmaid's gown was of white georgette and the maid of honor wore white satin with trimmings of georgette.

After the ceremony and congratulations a lap supper was served. The dining room was prettily decorated, a color scheme of pink and white being carried out with charming effect. The cutting of the large bride's cake was an interesting event, Melvin Ommen receiving the key. Alpha Ommen the ring and Henry Eckhoff the dime.

The bride is the youngest daughter of Mrs. Marie Ommen and has spent all of her life in Meredosia, Ill. She is a musician of ability and for some years has served as organist at the Lutheran church in Meredosia. She is a young woman of much charm of manner and is exceedingly popular with the young people of her community. She has the good wishes of her many friends at this time.

Mr. Unken is the oldest son of Mr. and Mrs. Albert Unken of Chapin precinct, and for a number of years has been associated with his father in farming. In last June he left with the Morgan county contingent for Camp Taylor, Ky., and was located there until last February, when he was discharged from the army service. At that time he was serving as sergeant of the First battalion.

Mr. and Mrs. Unken will reside at the home of the bride's mother, Mrs. Marie Ommen, east of Meredosia, and have the hearty good wishes of their many friends.

Bradley-Sullivan.

Russell Bradley and Miss Hazel Sullivan, both of this city were united in marriage at 8:30 o'clock Saturday evening by Dr. Walter E. Spoonst at his residence. The groom is an employee of the express company and is highly regarded by his employers and fellow workmen. The bride is a member of Northminster church and has made her home with Mrs. William Sperry. She is a young woman who holds the esteem of a large circle of friends.

AN INGENIOUS INVENTION

Not every city knows what inventive genius it contains and that is certainly true of Jacksonville. Joseph Gomes of North Main street has perfected a combined porch and lawn swing and an outdoor bed all in one. Generally when an affair of that kind is put forth it is good for neither but this is most certainly an exception. In the first place it is put together without a bolt or screw and can be changed from swing to bed or bed to swing without any kind of a tool. It is so arranged that it can be made into a bed 6 1/2 feet long and something over three feet wide all ready for the mattress and posts admit of curtains to make it private. The foundation for the bed can be level or either end can be slightly elevated for a head rest. It can be folded into a very small space for storing away. It is indeed a remarkable and useful invention.

MORE RED BLOOD AND STEADIER NERVES FOR RUN DOWN PEOPLE

The World Demands, Strong, Vigorous, Keen-Minded, Men and Women

It has been said of Americans that they work their habits overtime.

Many become nervous and inefficient by overwork.

By worry, despondency, social affairs, robbing brain and body of needed rest; excessive use of tobacco, indulgence in strong alcoholic drink—excesses of every kind that burn up the vital powers so necessary in these trying times to make both men and women fit to be of help to themselves and others.

It is time to be temperate in all things. The man or woman with impaired nerves caused by impoverished blood lacks vigor, the ambition, the endurance and the keen mind of those who avoid excesses.

Timidity, despondency, fear, trembling hands, want of confidence and even cowardliness, are due in a large measure to abused nerves. People with plenty of red blood corpuscles and strong, healthy nerves have no desire to shirk work and lean on others for guidance and support.

There is hardly a nerve-shattered man or woman (unless of an organic disease) in America today who cannot become alert and clear in mind; vigorous and energetic in body in a very few weeks and at trifling cost.

To become strong and ambitious, to feel that work is not drudgery; to have steady nerves, abundance of red blood and power of endurance; to be not only a man but a man of power, a superman, you must take seven tablets of Bio-feren every day for seven days—and take them faithfully.

Take two after each meal and one at bedtime and after seven days take one only after meal until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if your nerves are not twice as steady as before; if you do not feel ambitious, more vigorous and keen-minded, the pharmacist who dispensed the tablets to you will gladly hand you back just what you paid for them.

Bio-feren is without doubt the grandest remedy for nervous, rundown, weak, anaemic men and women ever offered direct through druggists and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

COMMUNITY COUNCIL NOTES

The temporary committee of the community council met Friday evening to perfect plans for permanent organization. It is hoped to organize the Jacksonville council on the evening of July 7 and the county council a few days later.

It is desired that all organizations selecting representatives for the community council send their names at once to the Executive Secretary, Mrs. Sherman Leavitt, 907 West State, so she may notify them of the time and place of meeting.

Woodson has already organized a local community council and it is the intention to organize similar councils in every precinct of the county. The chairman of the local precinct councils will represent the local in the county council.

Saturday afternoon four ladies came to the city from Chapin and talked with those interested relative to organization of a council in Chapin. The ladies were: Mesdames Anderson, Tucker, Roberts and Eiler.

THE PRICE OF HORSES

A well known horse dealer said yesterday he had not known horses to be so cheap as they are today since the panic of 1893. He had just returned from market at St. Louis where he saw 4000 western horses sold for \$10 to \$65 each and very fair animals. A big bunch of weanling colts from the western drove sold at \$6.50 each and the man said he came near buying them himself. The noble horse, man's faithful friend, is being displaced by the automobile, evening the curbing around a good part of the square was thick with cars which were mostly from the city and add to them those from the country and the number is great. The numbers on the license tags have already gone beyond the 400,000 mark.

The Jacksonville Farm Supply Co., must have an inside track this week we find they have unloaded a number of cars of goods in their warehouses, among them a car of all sizes of gas and kerosene burning engines, a car of bale ties and a car of storm buggies, besides much other merchandise. We wonder when they will get thru but will leave it to them as they seem to be all right.

RAY POND AT HOME.

Ray Pond of the 22nd Engineers has returned home in good health and spirits. He was on the other side ten months and saw plenty of service about Verdun, Metz, St. Mihiel and other places. He came back with the 17th division and is glad to be at home.

JAMES SATLEY IS

VISITOR IN CITY
James Satley, representing the To-Ro Motor Cultivator Co. of Minneapolis, is in the city on business with the Jacksonville Farm Supply Co. Yesterday he was at the farm of E. Reynolds where one of the motor cultivators is in use. It is interesting to note in this connection that Mr. Satley is a son of the founder of the firm, long ago established in Springfield. His wife is a member of the McGlasson family of Scott county, so that Mr. Satley has many friends and acquaintances in this locality.

HOME ON VACATION

Miss Cecil Templin of Washington, D. C., is at her home on a vacation and expects to be in the city about two weeks. She spent a week in Bowling Green, Ky., visiting her sister, Mrs. Virgil Conner. On her return to Washington, she has planned to visit friends in St. Joseph, Mich., and stop in Pittsburgh, Pa., to attend the wedding of R. L. Templin.

its faculty, which occurred after a brief illness on March 24th, 1919. Miss Cole was appointed instructor in German and French in 1903, and served in that capacity until 1915; she was assistant professor from 1905 to 1907, and professor in German and French from 1907 to 1919, having thus been connected with the college through a period of about sixteen years.

She had received her college training at the universities of Indiana and Chicago, and in Europe at the universities of Munich and Berlin, and in the best language schools of Paris.

She enjoyed these opportunities to the utmost, for she possessed a mind of high order and had great capacity for study and the acquisition of knowledge. Hence, she came to her life work very thoroughly equipped. Never quite satisfied with her own attainments, a few years ago she obtained a leave of absence for a year, and devoted this time to further study in Europe.

She loved the subjects which she taught and was full of enthusiasm for them. This enthusiasm she was able to communicate to her students in a rare degree, and obtained from them work of a high order. Those who went from her classes to other institutions usually took high rank in their studies—sometimes the very highest.

Miss Cole had an unusual faculty for acquiring the lasting friendship of her students, although she exacted hard work from them. Often they visited her at her home and received her friendly counsel and advice in matters pertaining to their studies or to their problems in life. Her time and strength were often consumed in this way.

when she might well have devoted time to rest or to some other subject.

This friendship of her students continued in the years after they left college, and she was among the first whom they sought on returning to Jacksonville. Moreover, she conducted considerable correspondence with her former students, and some of them have attested the great loss which they have suffered in her death.

Miss Cole was a woman of strong character, marked personality and independent judgment, which left their impress not only upon the students who came under her direction, but also upon faculty of our college and upon the community in which she lived.

She had strong feelings and sympathies, and because of these and other qualities her friends were many and were very much attached to her.

In the death of Miss Cole the students have lost a friend and most valued instructor; the faculty has lost one of its most capable associates and advisors; and the trustees have lost an able, conscientious and faithful professor, whose exact place in the life of the college it will be impossible to fill.

"Resolved, That this memorial be spread upon the records of the college, and that a copy be furnished by the secretary to the family of the deceased.

DEATHS

Standley.
Richard Standley, Sr., died at Maplecrest sanitarium at seven o'clock Saturday morning where he had been a patient for the past week.

Deceased was born in Joy Prairie, Morgan county, February 4, 1828, and grew to manhood in that vicinity. With the exception of a year spent in Kansas, he has been a resident of this county all his life.

He was united in marriage in 1847 to Miss Rachel Ausmus, who lived on an adjoining farm and their entire married life was spent in the vicinity of the home farm. They were the parents of twelve children, six of whom together with his wife, preceded him in death.

Those surviving are: Cyrus, of Kansas; Phillip of Moweaqua; Joseph of Greenburg, Kansas and Edward and Richard, Jr., residing northwest of the city. He also leaves two sisters Mrs. Jane Smith of this city and Mrs. Susan Zerley of Pike county.

Thruout his long life, Mr. Standley followed the occupation of farming and was successful in that calling. He was a member of Urania Lodge No. 243, I. O. O. F., and of Ridgely Encampment, No. 9. He was one of the oldest members of Urania in point of years.

The remains were removed to the undertaking parlors of Williamson & Cody and prepared for burial and will be taken this morning to the home of his son, Richard Standley. The funeral will be held Tuesday the time to be announced later. Burial will be in Moss cemetery. The Odd Fellows will have charge at the grave.

BACK FROM KANSAS.

W. D. McCormick has returned from Kansas where he went to visit his son James who moved out there last year. He found them busy harvesting and said the wheat crop on best land was hardly as good as expected, tho there would be still a large yield. Corn was badly needing cultivation and there as here all work seemed to come at once. He left his son and family well and prosperous.

Dr. Wm. O. Swales, wife and sons J. D. and Billy Jr., left at four o'clock this morning in his big Elgin Six touring car for Chicago and other northern points. While in Chicago they will visit the doctor's sister, Mrs. J. L. Freeman. They will probably take in Twin Lakes, Wis., before returning and land a few bass as the doctor is some piscatorial artist if anyone should happen to ask you.

Funerals

Loomis.
The remains of Mrs. Eleanor Loomis arrived in the city Saturday afternoon over the Wabash and were taken direct to Diamond Grove cemetery. Brief services at the grave were conducted by the Rev. W. H. Marbach. The following obituary sketch was furnished by Francis E. Loomis of Oak Park, who accompanied the remains here:

Mrs. Eleanor M. Loomis, widow of Prof. John Loomis, educator of the blind and founder of the present graded school system of Illinois.

Eleanor McGill Williams (Loomis) was born at Poolsville, Maryland, Sept. 29, 1831, was a direct descendant of John McGill who emigrated to America in 1578.

Her father Overton Williams believing slavery should be abolished sold his plantation in Maryland and divided the proceeds among his slaves, found homes for them with other slave holders with agreement that they or their children would not be sold or considered a chattel this being his only recourse as slaves could not be removed from a slave state to a free state. He then brought his family to Illinois in 1838 settled near Springfield.

Thus did she witness the transformation of Illinois from the semi-wilderness of roadless prairies; sloughs and buffalo wallows when wolves and deer were plentiful even an occasional buffalo and now and then a wild cat was to be seen.

Few schools and church meetings being conducted by Circuit Rider Ministers. Step by step up to the present modernism.

Having patronized the first rail road built in the State of Illinois, she used the first air service mail delivery. She was active and retained all her faculties up to a few hours before her death from pneumonia.

Mrs. Loomis was highly educated and of reticent nature, home and family were her world. Mrs. Loomis was a member of The First Presbyterian church of Jacksonville, Ill., but since demise of Prof. Loomis she made her home with her sons, Eugene O., Omaha, Nebr., deceased and Francis E., of Oak Park, Ill.

German.

Funeral services for John German were held from Salem Lutheran church at 3 o'clock Saturday afternoon in charge of the Rev. J. G. Kuppler. Mrs. Robert Stice sang two solos.

The flowers were cared for by Mrs. Bessie Wheeler, Mrs. John Tobin Miss Leta Wiegand and Mrs. C. W. James. Burial was in Diamond Grove cemetery the bearers being John Reuter, Carl Reuter, Ernest German, William German, John German and Clarence German.

CAPT. W. T. HARMON WRITES FROM LONDON

Mrs. Katherine Harmon, 516 East College avenue, is just in receipt of a letter from her son, Capt. W. T. Harmon, dated June 10 and written from London. Capt. Harmon was at that time visiting the great city, having been granted a leave of absence from his company, the 265th military police. The letter gave no indication as to when Capt. Harmon expected to return to this country, and there is a probability that his company will be in France for some time to come.

We Sell Implements Twice Guaranteed

Buying Implements from Us is Like Taking a Two-Name Note
—Its Safer

No matter how well you may know a man, nor how much confidence you might have in him, if he wanted to give you his note guaranteeing future payment of a loan, you'd just a little rather have some other reliable party share the responsibility with him.

When we sell an implement, we guarantee it to be all we claim it to be. But behind us stands the manufacturer of that implement — he shares the responsibility with us. This two-name guaranty applies to every implement we sell—no matter whether it be an engine plow or spike-tooth harrow. Big and small purchasers are protected equally.

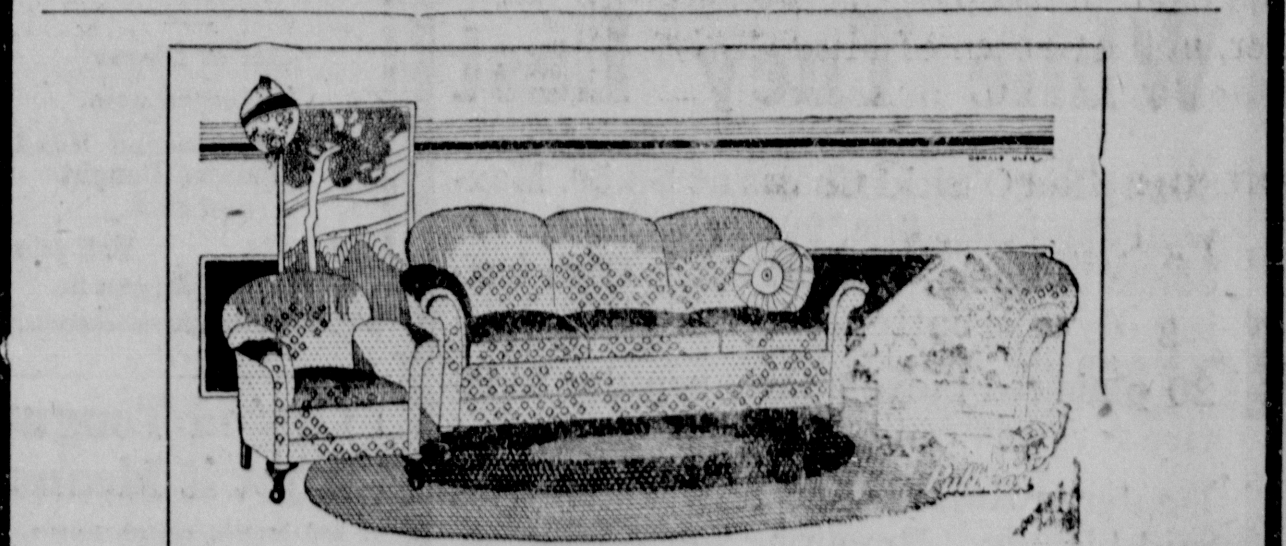

We wouldn't handle goods of the manufacturer who wouldn't stand back of everything he claimed for them. And so you have real assurance that you are getting just what we say you are getting when you buy from us. Both our reputation and the manufacturer's reputation are at stake.

Drop around to the store some day — we want you to see what we have.

CUBS PLAY UPHILL GAME AND WIN

Defeat Cards in Final Game of Series By Bunching Hits—Other National League Games.

Chicago, June 28.—Chicago played an uphill game today and by bunching hits defeated St. Louis in the final game of the series 6 to 5. Following the local's short stop, during the batting practice was hit in the mouth by a batted ball and rendered unconscious. He was carried off the field and it was necessary to have a stitch taken in his lip which was split.

Score: St. Louis 5 8 0 Chicago 6 12 3 Goodwin, Sherrell, Tuero, May and Snyder; Tyler, Bailey, Martin, and O'Farrell.

Cincinnati, 3; Pittsburgh, 3. Pittsburgh, June 28.—Effective pitching by Sallee enabled Cincinnati to win from Pittsburgh today 3 to 0. Miller was unsteady in the first inning, passing a man and hitting another and this, with two hits, scored two runs for the visitors.

Score: Cincinnati. 000 000 001-3 9 1 Pittsburgh. 000 000 000-0 4 2 Sallee and Wingo; Miller, Meyer and Schmidt.

Brooklyn, 2-6; Philadelphia, 0-3. Brooklyn, June 28.—Brooklyn beat Philadelphia twice today 2 to 0 and 6 to 3. Cadore and Rixey fought a pitchers' battle in the first game, each allowing only three hits. Olson singled in the third and ran all the way home when Pierce muffed Wheat's fly in short right.

Brooklyn bated Jacobs hard in the second game while Mamaux kept the visitors' hits well scattered.

Score: First Game—Philadelphia . . . 000 000 000-0 3 1 Brooklyn . . . 101 000 000-2 3 0 Rixey and Cady; Cadore and Miller.

Second Game—Philadelphia . . . 000 012 000-3 7 1 Brooklyn . . . 011 201 010-6 12 0 Jacobs and Clarke; Mamaux and Miller.

New York, 5-3; Boston, 6-3. Boston, June 28.—Boston and New York divided a double header today, Boston winning the first game 6 to 5, and New York the second 5 to 3 in 14 innings. Errors by the rival shortstops were responsible for the loss of each game. Fletcher erring in the opening game and Maranville and Rawlings in the second.

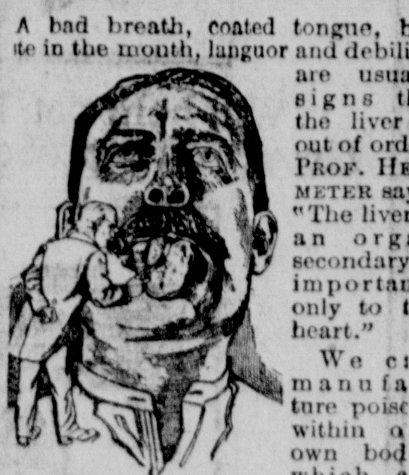

Score: First Game—New York . . . 300 002 000-5 6 3 Boston . . . 100 120 200-6 12 1 Toney, Dubuc and Gonzales; Nehf and Wilson.

Coated Tongue What it Means

A bad breath, coated tongue, hiccups in the mouth, languor and debility are usual signs of the liver out of order. Prop. He METER says "The liver is an organ of secondary importance only to the heart." We can manufacture a cure within a few days which is as deadly as a snake's venom. The liver acts as a guard over the blood, sifting out the cinders and dross from the general circulation. A blockade in the intestines puts a heavy burden upon the liver. The intestines are choked or clogged, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste and we suffer from headache, yellow coated tongue, bad taste, nausea, or gas, acid dyspepsia, languor, debility, yellow skin, etc. At such times one should use castor oil or a pleasant laxative. Such a one is made of Mapple, leaves of aloe and jalap, put to ready-to-use form by Doetler, nearly fifty years ago, a old for 25 cents by all druggists. Dr. Pierce's Pleasant Pellets.

SOX NOSE OUT BROWNS IN SIXTH

Jackson's Single Drives in Two Runners After Gedeon's Wild Heave Puts Them in Scoring Position.

St. Louis, Mo., June 28.—A two base wild heave by Gedeon in the sixth put two runners in scoring position, the single by Jackson drove them across and Chicago nosed out St. Louis today 3 to 2. The White Sox scored the winning run in the seventh when Schalk singled stole second and tallied on a single by E. Collins.

Score: Chicago . . . 000 022 100-3 6 1 St. Louis . . . 010 000 100-2 5 1 Williams and Schalk; Shocker and Severid.

Washington 4-6; Philadelphia 1-3. Philadelphia, June 28.—Washington triumphed twice over Philadelphia today by reason of the superior pitching of Erickson and Shaw. The scores were 4 to 1 and 6 to 3. Strunk made his appearance with the Mackmen after two years absence.

Score: First Game—Washington 002 011 000-4 11 3 Philadelphia 000 000 100-1 7 2 Shaw and Garrity; Johnson, Kinney and McAvoy.

Detroit, 3; Cleveland, 1. Detroit, June 28.—Detroit won its sixth straight game today defeating Cleveland 3 to 1 by bunching three hits with two passes off Coveleskie in the fourth inning.

Score: Cleveland . . . 001 000 000-1 6 0 Detroit . . . 000 300 000-3 6 0 Coveleskie, Phillips and O'Neill; Nunamaker; Leonard and Almsmith.

Boston, 2-1; New York, 0-4. New York, June 28.—After shutting out New York 2 to 0 in the first game, Carl Mays of Boston failed in his "Iron Man" stunt when the Yankees batted him hard in the early innings of the second contest, winning by a score of 4 to 1.

Also the Red Sox outbatted New York in the second game, their hits were kept scattered by Shore.

Score: First Game—Boston . . . 000 000 020-2 4 2 New York . . . 000 000 000-0 7 2 Mays and Schang; Thormahlen, McGridge and Hannah.

JULY 1 NATIONAL BUTTERMILK DAY

Popularization of a Good Drink Aim of Observance Suggested by Department of Agriculture.

Washington, D. C., June 27.—July 1 is National Buttermilk day. Buttermilk, the United States department of Agriculture thinks, is one of the best drinks in the world—nutritious, palatable and full of zest and vim. The man who drinks buttermilk regularly and copiously is doing a good turn for himself.

That is one of the purposes of proclaiming National Buttermilk Day. The other is that the dairy industry in the United States will be encouraged. Buttermilk Day, it is hoped, will remind many people of this drink, introduce it to others, and be the beginning of a greater consumption of buttermilk that will contribute to the health and happiness of the consumers and, at the same time, help dairy farmers to develop production.

To insure an ample supply of buttermilk, both for home and for hotels and restaurants on July 1, the department of Agriculture requests creameries, milk plants, and other dairy establishments to co-operate in the plan to popularize the drink.

It is pointed out that, while straight buttermilk is an excellent drink, there are a number of delicious combinations. Buttermilk lemonade is obtained by adding the juice of two or three lemons to a quart of buttermilk, with sugar to taste. Buttermilk may be combined with lemon juice, orange juice or eggs and sugar for making frozen dainties.

Aside from its food and beverage qualities, buttermilk is said to possess medical qualities. Many physicians prescribe it in the treatment of certain intestinal disorders. The bacteria that brings about the chemical change by which buttermilk is produced is believed by many physicians and bacteriologists to destroy certain other organisms that, in the human body, tend to hasten senility. Many prominent men drink buttermilk regularly as a tonic. One of the most widely known lecturers and writers in the United States drinks buttermilk regularly as he brushes his teeth—and declares that he feels himself getting younger with every glassful.

THIRD NATIONAL CONVENTION OF BUSINESS AND PROFESSIONAL WOMEN.

Business and professional women from all over the U. S. will convene in St. Louis, July 14th-18th at the Statler Hotel for the third annual convention which is being called by the Woman's Association of Commerce of United States of America, headquarters 1653 Monadnock Bldg., Chicago.

Delegates from practically every state in the union have already pledged their presence for the avowed purpose of taking counsel together for the next great forward step in the advancement of women in business and the professions. They do not propose that the progress they have made during the great world war shall be lost through lethargy or indifference.

More and more do women realize that men have always glorified their achievements, thus stimulating other men to greater efforts. In the future women must do this if they are to keep pace with the progress of the times.

During the war the whole world learned of the great dynamic force which existed in the undeveloped ability of its women. It is now for the women

themselves to utilize this force in the reconstruction of all the warring nations.

The officers and members of the board of governors of the Woman's Association of Commerce of the U. S. A. are as follows:

President—Florence King, L.L.B., B. S., Chicago, Ill.
Vice President—Dr. Elmore C. Folkmar, Washington, D. C.; Dr. Irene Behnke, Chicago, Ill.
Secretary—Dr. Anna R. Ranes, Chicago, Ill.

Treasurer—Laura G. Fizen, Chicago, Ill.

Members of the Board of Governors—Elizabeth Rahney, Indianapolis, Ind.; Mary C. C. Bradford, Denver, Colo.; Helen Varick Boswell, New York City; Jessie Palmer, Davenport, Iowa; Mrs. J. Delendrecie, Fargo, N. D.; Alma Lohmeyer, Springfield, Mo.; H. Anna Quinby, Columbus, O.; Emma May, Terre Haute, Ind.; Anita Bauman, Akron, O.; Helen F. Reedy, Bloomington, Ill.; Helen Alpaugh, Chicago, Ill.; Bina M. West, Detroit, Mich.; Abbie E. Wilkins, San Francisco, Cal.

From County Agents Office

Clipping Clover—The College of Agriculture has started a series of experiments to discover the effect of clipping or cutting on the yield of seed. Bumble bees and other insects that fertilize red clover have been more abundant than usual this season. As a result, most fields of red clover show a good set of seed in the first crop. At the University of Illinois the red clover on the grain systems of fields will all be cut for seed. Some farmers in the state are also reporting their plans to harvest a seed crop in July.

Iowa 103 and 105 Oats—This office has recommended Iowa 103 oats for our prairie soils. Dan Moy, Harry Rice, Albert Gibson, Bert Way and Mathew and Debor have very promising fields. There are doubtless many others but the county agent has been unable to visit them. Heaton, the county agent in DuPage County, recently made a test of several varieties of oats. Iowa 103 and 105 have a smaller percent of chaff and a larger percent of meat than any of the other varieties tested.

Cause of Low Grade Wool—An exhibit was recently shown in LaSalle County that attracted attention. The exhibit had samples containing chaff, grease, tags, paint and burs. This office has been supplied with representative samples of high grade wool representing the various grades. Sheep raisers are invited to inspect these samples.

Time to Spray for Second Brood of Coddling Moth—The cool wet weather of the first part of May was unfavorable to the development of the coddling moth. Moths of the overwintering brood emerged in small numbers up to the last few days in July at which time a heavy emergence occurred throughout the southern two thirds of the state.

Since the young worms entered the apple the weather has been more uniformly warm than usual throughout the large orchard district.

There will be a general hatching of worms of the second brood during the first week of July. In southern Illinois the first spray for the brood should be applied not later than July 4, in Central Illinois not later than July 7 and northern Illinois about July 25th.

Due to the fact that cool, wet weather retarded development and permitted moths to emerge over a long period, it would be advisable to apply an additional spray for second brood larvae about July 20th in southern Illinois and July 25th in central sections.

The materials should consist of arsenate of lead at the rate of 4 pounds of paste or two pounds of powder in 100 gallons of solution. In sections where bitter rot is expected 8-8-100 Bordeaux Mixture should be used. In all others 8 pounds of freshly slaked lime should be added to arsenate of lead.

There's More to Photos Than Merely Pointing a Camera—

OLD COMRADES MEET IN HARVEST FIELD

John Criswell and Benjamin Darley, Civil War Veterans, Take Turn in the Clover Harvest.

(From Waverly Journal.)
Back in Civil War days two youths, John Criswell and Benjamin Darley, fought for the Union, being members of the Rodgers Battery, 2nd Illinois Artillery. On the 17th day of July, 1865, they received their honorable discharge. They were quite young to be veterans of a war, both being under 21 years of age.

During the past week Comrades Criswell and Darley have been doing service again, this time in the clover hay harvest and it recalled to their minds that 52 years ago this summer they worked together in wheat harvest. Reminiscences were in order as they handled the clover and the two veterans enjoyed recounting the events of the war of the rebellion.

The recent war put these "boys" on fighting edge again and it was almost necessary to tie them to keep them from going over to help the Allies. "Uncle" John says he can beat "Uncle" Ben in a footrace, but "Uncle" Ben comes back by declaring he can knock out "Uncle" John in the ring.

But be that as it may they are both jolly and full of life and if they insist on going into the harvest field, there are plenty of fields open. We hope to see them in line at many old soldiers' reunions, keep step with the other veterans to the same old music, in the same old way, with that other old veteran, John Maginn, at the head of the column as flag bearer.

ASK DUTCH TO REFUSE TO DELIVER KAISER

COBLENZ, Thursday, June 26.—(By the Associated Press)—The following advertisement is appearing in newspapers in various parts of unoccupied Germany, being a part of the campaign that is said to be going on throughout the country under the auspices of the officers' alliance:

"We have telegraphed the Holland government as follows: 'The German officers' alliance, filled with gratitude for the hospitality afforded the German kaiser by Holland in the name of millions of Germans requests the government of the Netherlands to refuse to deliver the kaiser to the entente. We cannot now defend our former war lord without bodies but we expect the magnanimity of the Dutch to spare us this final and most humiliating disgrace.'"

The advertisement is signed "The German Officers' Alliance." No papers appearing in the American occupied area have been permitted to print the advertisement, which is addressed to "All Germans."

ILLINOIS COLLEGE NOTES

President Rammelkamp recently received from an alumnus who is still in the service a substantial subscription of \$1,000 to the new endowment campaign. Since the subscription came entirely unsolicited it was especially appreciated. It is a good indication of the loyalty of the alumni of "Old Illinois." This alumnus had just returned from overseas.

Dr. Rollin H. Tanner, formerly professor of classics in Illinois College, was recently appointed Dean of Granville College of Dennison University. Dr. Tanner will be on the faculty of the Summer school of the University of Illinois this summer.

A letter recently received by the College authorities from the war department brings the interesting news that all the contracts with the 685 colleges and universities for the Student Army Training Corps have been settled. The S. A. T. C. contract is the first contract to be entirely cleaned up and settled.

Professor George H. Scott, who has recently been appointed to the chair of mathematics and physics in Illinois college, has gone to the University of Illinois to do advanced work in physics during the summer.

Professors George R. Poage and William F. Luebke are doing special work at the University of Chicago this summer.

Professor Isabel Smith is spending part of the summer in her laboratory at the College completing her thesis for the doctor's degree.

Robert J. Foster, ex '18 has recently been discharged from the service. He is planning to return to College in the fall.

The College office is receiving this spring a larger number of requests for recommendations for teachers than ever before. Practically all of the seniors and alumni of the College who wish to engage in teaching have found attractive positions.

The college will be represented by a float in the Home Coming Celebration on the Fourth of July.

SPECIAL CHURCH

ANNOUNCEMENT

Northminster church services for Sunday, June 29:

9:30—Sunday school under direction of Wm. Bieber.

10:45—Divine worship conducted by Assistant Pastor J. H. Morphis.

J. H. Morphis will preach at Trinity school house at 3 p. m. 7 p. m., Christian Endeavor hour. Subject, "What does loyalty to our church and country call for?"

Evening worship 8 p. m. This service will close the ministry with the Northminster church of Mr. Morphis.

Note.

Next Sunday will close the ministry of J. H. Morphis with Northminster church, where he has supplied for Dr. Spoons since first of last September. While he does not know just where he will locate as yet, it may be in a town nearby, or it may be over at Danville, Ill., where he was pastor for several years. At any rate Mrs. Morphis will remain here until a location is decided upon.

LEAGUE PROPOSES IRISH HOME RULE

LONDON, June 27.—Establishment of self-government in Ireland within the British empire is proposed in a manifesto issued today by the "Irish dominion league" and signed by Sir Horace Plunkett and other Irishmen.

The proposal is said, is a great advance over any previous proposed solution for the Irish question except that the British connection is maintained. Under this plan Ireland would have virtually the same amount of home rules as if she were an independent republic.

The manifesto points out the disadvantages to which Irish products would be exposed if Ireland was a republic severed from the British empire. Mention is made of possible hostile tariffs and it is said such a position might lose for Ireland her share in any imperial preference which might be established.

Four Great Records

Only a small part of the story of the unusual performance of the Overland is a matter of record. In the last few weeks, however, from Oklahoma City, Boston, and Los Angeles have come reports of remarkable tests that prove the power, endurance and dependability of Model 90 cars.

Now comes Harrisburg with a new world's record of 702.5 miles a day for 5½ days without motor stop, sealed in high gear. A Model 90 stock car performed this remarkable endurance feat. Let us show you a duplicate of this car.

PREPARE FOR GRAIN RUSH

Alton officials have received the following from Hale Holden, regional director: "Report of company material on wheels as of June 6 shows a total of 6,891 cars of coal and coke and 3,506 cars of other material on hand on all roads under the jurisdiction of the Central Western Region, on some of the roads the average delay per car is very excessive but owing to the unusual car surpluses obtaining during the past few months attention has not been attracted to these delays. With the approaching grain season the demand for box cars will be extremely heavy; therefore, commencing at once special effort should be made (1) to avoid, so far as possible, utilizing box cars for company material loading; and (2) when box cars are utilized see to it that they are loaded, moved and unloaded without delay.

Roadmaster Morris Donahue asks at section foreman to pay close attention to the release of cars loaded with company material and see that no cars are held under load any longer than absolutely necessary, especially box cars that are available are needed now to handle shipments of grain. Also watch the handling of coal cars and see that they are not held under load with company material any longer than is necessary. (Bloomington Panograph.)

ENTERTAINMENT PLANS NEARING COMPLETION

Various Amusement Plans for July 4th Celebration Are Formulating in Satisfactory Manner.

The plans of the entertainment committee of Home-Coming celebration are being rapidly brought to completion, according to Chairman C. F. Ethie. One of the interesting features of the day which is now assured will be the coming of an airplane from Scott field, Belleville. The airplane will arrive at 9:30 a. m. and be here for several hours. It is the plan to have the airplane follow the line of march out to Nichols Park, where a brief exhibition may be given.

The buttons which are to be furnished to all soldiers who march have arrived and are attractive in design. The words, "World War Veteran, 1919, Morgan County" appear about the edge of the button, while in the center appear cannon crackers in the form of a big "A" and the word "July" is just below. These buttons are about the size of a half dollar and will constitute very desirable souvenirs of Morgan County's great day. Some of the buttons are now on display in the window of Mullenix and Hamilton's store on East State street and are being viewed with great interest.

The following are the sub-committees which are working in conjunction with the entertainment committee:

Games committee—J. S. Pindley, Harry Walker, Herbert Henderson, Bert Andre, Fred Darr.

Fireworks committee—Harry Obermeyer, R. P. Thompson, William Newman, Sh. LeRoy Craig, Earl Wiswell.

Dance committee—Charles Strawn, C. H. Coe, J. B. Johnson, Louis Piepenbring, C. H. Phillo, Grounds committee—H. J. Rodgers, Albert Metcalf, Scott Carter, H. C. Clement, H. D. Lavery.

Carnival committee—F. E. Farrell, John Larson, William Benson, George Orear, M. W. Osborne, Leonard Potter, Louis Weber, Carl Weber, J. W. Merrigan, Lloyd Brown, Mrs. Barr Brown, Mrs. Clark Green, Miss Bess Hadden, Miss Katherine Hatfield.

MORGAN COUNTY AHEAD

As he was journeying by auto from Chicago recently J. F. Claus especially noted conditions in Livingston and McLean counties, both districts which are very proud of everything they have and where land is even higher than in Morgan county. Mr. Claus said he noticed the wheat was not as far advanced there and the new crop of corn was decidedly behind ours. Aside from their hard roads the ordinary highways are hardly as good as ours and in general he says he found conditions not up to those in old Morgan.

LOOKED 35

Mrs. A. B. F. Mrazak, Adelaide Apts., 3551 Victor St., St. Louis, Mo., says she wants every woman in Jacksonville to know of her wonderful experience and will be glad to have them write her a personal letter which she will immediately answer telling how, after suffering several years from gallstones, female troubles and the general run-down condition that is to be found in ailments of this character, she finally obtained relief by using SYSTM Mrs. Mrazak writes:

"I did not take SYSTM as directed on the bottle. My physician prescribed it to be taken: a teaspoonful before meals and before retiring, the medicine to be followed by a glass of cold water.

"Every woman should continually keep a bottle of SYSTM, the Liquid Regulator in her home. She will be well repaid by the comfort secured each thirty days in the year. A short treatment of SYSTM will make any woman feel ten years longer, as was proven in my case."

SYSTM may be obtained at the Luly-Davis Drug Company. Money cheerfully refunded if you are not satisfied.

J. V. Maloney of Carrollton was in the city just arrived from overseas. He was in the 33rd Field Troops and was hastening south as fast as he could get there.

TWO LAWN PARTIES A TBLUFFS FRIDAY

Haul More in Less Time

To accomplish more in less time is the ambition of every man just now, no matter what business he is in. Rapid and economical transportation of all commodities is a business necessity. To get a load to its destination in good condition with the least expense and in the shortest time possible is the job that has been put up to the International Motor Truck by thousands of business men—and the International has made good.

From the men using a single truck to the big corporation using over 600 Internationals, our truck has made good in a big way—from the standpoint of low operating cost as well as steady service.

You will be interested in the sturdy, powerful engine, the simple, efficient internal gear drive, and the drop-forged rear axle. An inspection will convince you that the

International Motor Truck

is built to last, and built to give service under the trying conditions encountered in everyday work.

We are glad to explain the mechanical features of our truck and present evidence that the International Motor Truck is built to last and give the kind of service business men want and appreciate. There is style and size to meet practically all hauling requirements.

THE WORLD'S MOST ECONOMICAL CAR DORT

The Dort is built for service—a strong and enduring car—a good looking and comfortable one. In the opinion of thousands of owners who have paid more for cars in the past, the Dort embodies everything required for efficient and satisfactory use.

It has harmonious and attractive lines, sturdy frame and axles, powerful, quiet, smooth running engine; comfortable seats and lots of room for five people. Its starting and lighting equipment is the best in the world. Its cooling properties are unusual. It is easy to "get at" and simple to drive.

The Dort satisfies pride of ownership, as well as high mechanical requirements at exceptionally light operating and maintenance expense.

**DRESSMAKER
SAVED FROM
OPERATION**

By Taking Lydia E. Pinkham's Vegetable Compound in Time.

Ithaca, N. Y.—"Three years ago I suffered from pains in my right side, so severe that I could not raise my feet from the floor. Pains would shoot down my limbs and through my back, and the doctor said I had an abscess. I was in bed two weeks with an itching on my side and expected any day that I might have to go to a hospital for an operation. A friend came to see me and told me of your wonderful medicine—Lydia E. Pinkham's Vegetable Compound. I began taking it, and after taking six bottles I feel well and strong, do my own work and do dressmaking for others. I cannot speak too highly of your medicine and recommend it to others who suffer with female trouble. It is a Godsend to ailing women, and you may use my name at any time."—Mrs. PERMILLA HULSHIZER, 218 E. Fall St., Ithaca, N. Y.

Women who suffer from any such ailments should not fail to try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound.

TAMAGA CAMP FIRE
GIRLS TO LAKE WILCOX

The Tamaga Camp Fire Girls left Saturday morning for a week's stay at Camp Wilcox. They moved to Lake Wilcox in cars provided by Dr. W. P. Duncan. They will occupy the Bill-Flo-ed-Dor-Don cottage.

Those who will enjoy this delightful outing are: Alice Alexander, Beulah Dyer, Charlotte Hull, Helen Rose, Clara Smith, Nellie Swain, Augusta Webster, Eunice Williamson. Miss Mary Alexander will chaperon the girls assisted by Anna Weir.

MAVERICKS

Goodbye old John Barleycorn. We hate to see you go. Your presence at the festival board made conversation flow.

The United Press is blowing its own horn about its great work in the recent war but it fails to mention its "scoop" on the ending of the war which was published several days before the war ended.

The peace treaty is making a lot of useless conversation down at Washington.

The Kaiser's son escapes from Holland. The dispatches tell us. We see no reason, however, why

the residents of Holland should shed any tears over it.

If a Chicago resident moves after July 1 he can't take his stock of wet goods with him. We predict that some Chicago citizens will be compelled to remain in the same house for several years.

The former Kaiser spends most of his time now sawing wood. If he had said nothing and sawed wood a few years ago he might not be in his present plight.

Perhaps if President Wilson would give out the peace treaty and let the people know what is in it he would not have to make that speech making four.

The dispatches tell us that the peace treaty is obnoxious to Germany. Well, nobody expected they would be tickled to death with the terms.

What an awful thing it will be to have to listen to all the speeches at a banquet without having a drink to help one stand it.

A Chicago man found an alligator in his back yard last week. However, that will not happen after July 1.

Only ONE more shopping day. G. W. D.

M. D. Nichols and family motored from Arcadia to the city yesterday.

THRESHERMEN TALK PRICES
A meeting of the Threshermen of the county was called for Saturday afternoon but no meeting was held. On Saturday June 21 a meeting was called but only twenty-four out of the eighty-eight threshers outfits in the county were represented.

It was felt that no action should be taken toward fixing prices without a greater representation present. It was the consensus of opinion of those present that the prices should be the same as last year.

At this meeting a blanket test was suggested which provides that if one half pint of grain is found in the straw from every five bushels threshed that the machine was disqualified. It is not

known just what will be of the matter tho some action ably will be taken soon as threshing will begin within a few days.

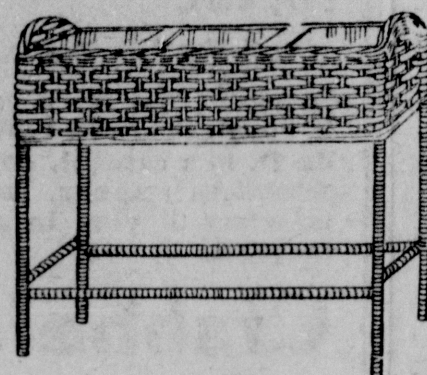

WARNING
Premature celebration the 4th of July, by the charge of Firecrackers other explosives, is contrary to city ordinance, and offenders will be arrested and prosecuted.

Acting Chief of Police

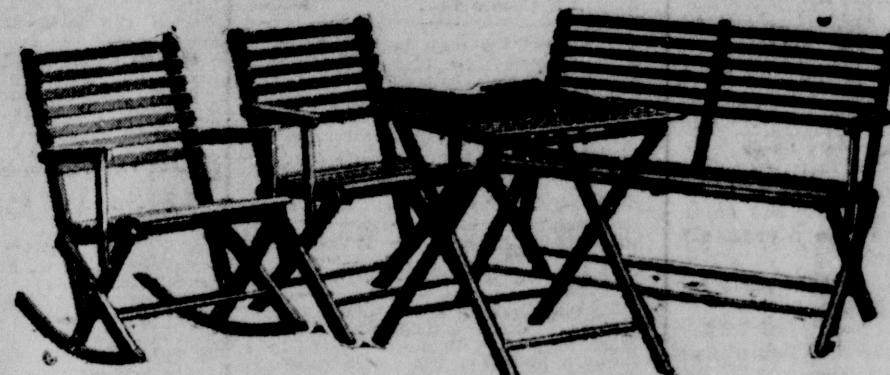

C. J. White of Morris was led to the city on business yesterday.
